Your contribution

Issue and decision

[One sentence about the problem and the change]

[Presenter name] / [GitHub username]

COMP2120 A4 [Tutorial] [Presentation date]

[One clear problem statement]

`input#name.ext`

BEFORE / ORIGINAL INTERPRETATION

```
path:     [path only]
fragment: [suffix after #]
```

→ **[old type]**

[Explain what changed and the limit of this comparison.]

AFTER / CHOSEN INTERPRETATION

`[complete filename]`

→ **[new type]**

[The technical decision]

Problem or alternative	[A concrete input or the alternative you considered.]
Chosen rule	[The precise condition and the behaviour it changes.]
Compatibility boundary	[An important case that must keep working.]
Why this approach	[The trade-off and remaining uncertainty.]

[Evidence and its limits]

01 [Regression coverage]

[What failed before and passes with your change.]

02 [Exact scope and result]

[Revision, command, counts and skips; distinguish local tests from CI.]

03 [Lesson or remaining work]

[What you learned or what still needs checking.]

[Your contribution and decision]

Problem and why this issue

[One trigger, observed behaviour and reason to choose it.]

Decision and why it fits

[Chosen approach and an important trade-off.]

[Code excerpt or screenshot]

[One observed result]

[Issue / commit / PR link]

[One input and one visible result]

[Evidence: input → result]

[Command / revision / source]

[What this result establishes and its limit]

Use this template with your agent

Start with the files

Tell Codex or Claude to read README.md, AGENTS.md and design-tokens.json from presentation/ before authoring.

Choose a suitable layout

Duplicate a cover, problem comparison, decision, evidence, explanation or demo slide. Replace the prompts with your own work.

Keep the approved style

Forest, warm paper and terracotta. Manrope headings; Roboto Mono for code. Reuse layouts and render before delivery.

Hand back an editable section

Aim for about 55 seconds. Include sources and a script in speaker notes. Supply PPTX plus a PDF or PNG preview.
